Carstens Manufacturing Co. from Chicago, Ill.; and charging that it was misbranded in that it was dangerous to health when used with the frequency or duration prescribed. The article was labeled in part: "Hood Improved Pessary."

On September 11, 1940, no claimant having appeared, judgment of condemnation was entered and the product was ordered destroyed.

On or about September 26, 1940, the United States attorney for the Eastern District of Michigan filed a libel against 58 bottles of Bromo-Thein at Detroit, Mich., alleging that the article had been shipped in interstate commerce on or about August 28, 1940, by Lockwood Laboratories from Hammond, Ill.; and charging that it was adulterated and misbranded.

The article was alleged to be adulterated in that its strength differed from that which it purported or was represented to possess.

It was alleged to be misbranded in that the statement on the label, "Each heaping teaspoonful contains 2½ grains Acetanilid, 2½ grains Sodium Bromide, 2½ grains Potassium Bromide," was false and misleading since it was not correct. The article was alleged to be misbranded further in that its labeling failed to bear adequate directions; and in that the labeling failed to bear adequate warnings against use in those pathological conditions where its use might be dangerous to health, or against unsafe dosage, methods, or duration of administration or application in such manner and form as are necessary for the protection of users because frequent or continued use of the article might be dangerous, causing serious blood disturbances, mental derangement, and other serious effects.

On November 7, 1940, no claimant having appeared, judgment of condemnation was entered and the product was ordered destroyed.
